WEATHERWELL ELITE

Weatherwell Elite combines cutting-edge engineering with a beautiful design to produce a shutter like you've never seen. Enclose a patio or balcony, or use as attractive security screens, these highly versatile shutters are stronger and more durable than any other shutter on the market, yet have been designed with elegance and minimalism in mind. With the 'Blade Stay' the blades can be set in any position. The internal mechanism hides all visible screws and fixings, which not only makes the shutter more attractive but more resilient to the elements. Extreme wind ratings and security features make this shutter the ultimate in functionality.

LOCKABLE SECURITY

Weatherwell shutters' robust design gives them the strength to survive high winds. A solid aluminum rod inside the blade end cap gives added vigor. Optional double shute bolts keep the panels secure and in place while maintaining the clean and minimal design.

PRIVACY

Maintain the beauty of your outdoor areas while still allowing light control, airflow and privacy.
